The new MRC Tracking Committee has completed our first TD/TDX Test.

While the plotting day was wet and dreary the day of tracking was beautiful!

Great thanks to all MRCer's our Judges John & Darlene Barnard and non-members who contributed so greatly to a successful test. (Especially Erik Jacobson our cross-track layer).

In the words of Karla Niessing the MRC Tracking Committee Chair about our "Chili Dump" and success"

"That was the best chili I ever had! We combined our culinary skills and "dumped" our chili together to make a delicious lunch, and we combined our minds, hearts and "working-together" skills to make a successful tracking test. It was a great success and I'm so grateful to everyone for making this happen.

We look forward to 2015 and MRC's 35th Anniversary Year of Tracking."
